MODEL	LIST
3101182	\$53.95

CHROMATIC HARMONICAS

Chromatic Harmonicas are designed to play every complete scale in any key - major, minor, pentatonic, blues, etc. - all on one instrument. Additionally, all accidental notes are available at any time for any situation. Each single hole contains four reeds: two natural notes and two chromatic notes are enabled by pushing a slide button on the side of the harmonica. Most chromatics are solo tuned, meaning each group of four single holes covers a complete octave. This design offers a wealth of new musical options to the player. Most often, chromatic harmonicas are heard within the classical and jazz scenes, but they are frequently found in blues, folk, rock and pop music.

Available Keys: (1) A, Bb, B, C, D, Eb, E, F, G (2) *A, Bb, C, *D, E, F, G

HARMONICAS

DIATONIC HARMONICAS

For 150 years and counting, Hohner's diatonic harmonicas set the industry standard through high quality construction, excellent response and unsurpassed tone. Often called Blues Harps, they remain a fixture as both melody and accompaniment instruments in blues, rock, country and folk bands, as well as many other styles of music and musical ensembles. Richter tuning and undivided air channels allow for bending and overblowing reeds, creating the signature wailing sound typical of the harmonica.

Available Keys: (1) G, A, Bb, C, D, E, F (2) G, G#, A, Bb, B, C, C#, D, Eb, E, F, F# (3) G, Ab, A, Bb, B, C, Db, Low-D, Eb, E, F, F# (4) G, Ab, A, Bb, B, C, Db, D, Eb, E, F, Low-F, F#.

OCTAVE HARMONICAS

Similar to its sister harmonica, the tremolo, octave harmonicas are also double reed instruments. The bottom row of holes features the same notes as the top row, with reeds tuned exactly one octave apart. This enables a solo player to get a stronger, richer bodied sound than with a single reed harmonica. Octave models are popular in Cajun, Old Time, Celtic and Traditional music.
